INTRODUCTION:

Corruption is an unethical method that affects Nation's development economically, socially and politically. Corruption in the Indian society has prevailed from time immemorial in one form or the other. The basic inception of corruption started with our opportunistic leaders who have already done greater damage to our nation. People who work on right principles are unrecognized and considered to be foolish in the modern society. Corruption in India is a result of the connection between bureaucrats, politicians and criminals. Further, corruption has become something respectable in India, because respectable people are involved in it.

To live in corruption free India is a dream of every Indian. So in this context YBDP organized expert lecture on **“Social awareness against Corruption”**
